

AMIT CHAUDHARY

.NET Full Stack Developer | ASP.NET Core | React.js

amitpatel4155@gmail.com • [+91 7310252808](tel:+917310252808) • Lucknow, India • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven .NET Full Stack Developer with 3+ years of experience designing and delivering scalable, high-performance web applications. Proficient in ASP.NET Core, C#, React.js, REST APIs, and microservices architecture. Proven track record of optimizing backend performance by 30%+ through query optimization and caching strategies. Experienced in Agile/Scrum delivery, CI/CD pipelines, cloud deployments, and third-party API integrations including social media platforms, DigiLocker, Aadhaar, and WhatsApp Business.

TECHNICAL SKILLS

Languages	C#, JavaScript (ES6+), TypeScript, SQL Server, Bash, C
Frontend	React.js, Tailwind CSS, Bootstrap 5, Material UI, HTML5, CSS3
Backend	ASP.NET Core, EF Core, ADO.NET, Web API, REST API, SignalR, Websocket
Databases	SQL Server, PostgreSQL, Redis, Firebase
Cloud & Servers	IIS Server, Vercel, Kestrel, Docker
DevOps / CI/CD	Docker, GitHub Actions, CI/CD Pipelines
Testing & QA	Postman, Swagger / OpenAPI, Graph Api Explorer
Architecture	MVC, Repository Pattern, CQRS, Clean Architecture, Event-Driven
Tools	Git, GitHub, Visual Studio, VS Code, Figma, SSMS
Methodologies	Agile / Scrum, Code Review, Pair Programming

PROFESSIONAL EXPERIENCE

Software Developer | [Technosys Services Pvt. Ltd., Lucknow](#) March 2023 – Present

- Designed and implemented 10+ production-grade RESTful APIs using ASP.NET Core, reducing API response times by 30% through query optimization and Redis caching strategies.
- Built and maintained internal API documentation and coding standards, improving team onboarding efficiency and ensuring consistent code quality across projects.
- Integrated major social media platforms (Facebook, Instagram, Twitter/X, LinkedIn, WhatsApp, YouTube) using official APIs for social logins, data sharing, and content publishing.
- Developed a centralized Social Media Management Platform enabling multi-account management, post scheduling, real-time analytics, and engagement tracking from a single dashboard.
- Implemented Meta WhatsApp Business Platform for chatbot automation, live agent support, and case registration workflows, improving customer response efficiency.
- Integrated DigiLocker, API Setu, and Aadhaar-based verification into School Games Federation of India platform for secure digital document authentication.
- Built a Media Monitoring & Intelligence Platform integrating RSS feeds, YouTube Data API, TV streams, and news APIs with NLP-based Entity Recognition, Sentiment Analysis, and Severity Detection.
- Delivered Women Power Line (1090) — a government call centre system with IVRS integration, live monitoring, IP authentication, and real-time analytics dashboards.
- Optimized database queries and stored procedures in SQL Server, improving data retrieval speed and overall platform scalability.

KEY PROJECTS

Women Power Line (1090) — Government Project — *ASP.NET MVC, SQL Server, Bootstrap, JavaScript, jQuery*

- Delivered end-to-end call and case data management system for a state government helpline serving thousands of daily users.
- Integrated Darpan KPI system into CM Dashboard Portal and connected 112 Emergency Events API for real-time incident tracking.
- Implemented custom IVRS integration, IP-based authentication, live call centre monitoring, and comprehensive data analytics and reporting modules.

Social Media Monitoring & Analytics Platform — *ASP.NET Core, SQL Server, Meta APIs, REST APIs, JavaScript*

- Developed a centralized platform managing Facebook, Instagram, WhatsApp, LinkedIn, YouTube, and X from a single dashboard with post creation, scheduling, and drafting features.
- Built real-time analytics modules tracking engagement, audience growth, impressions, and post performance across all integrated platforms.
- Implemented secure OAuth account-linking workflows, webhook handling, token management, and automated content publishing pipelines.

Media Monitoring & Intelligence Platform — *ASP.NET Core, NLP/AI Models, RSS, YouTube API*

- Aggregated real-time news from RSS feeds, YouTube Data API, TV streams, and news APIs into a centralized monitoring dashboard.
- Integrated NLP-based Entity Recognition, Sentiment Analysis, and Severity Detection to identify impactful trends across digital, print, and broadcast media.

BaatCheet — **Real-Time Communication Platform** — *ASP.NET Core, WebRTC, SignalR*

- Built a WhatsApp-inspired platform with instant messaging, audio/video calling, group conversations, and media file sharing using WebRTC and scalable backend architecture.
- Integrated AI-powered chat features and optimized REST APIs for high performance and real-time message synchronization across devices.

MeetUp — **Video Conferencing Platform** — *ASP.NET Core, WebRTC, REST APIs*

- Developed a Google Meet-inspired platform with HD video/audio calling, screen sharing, meeting scheduling, participant management, and host controls.
- Built scalable real-time data handling to support stable multi-user conferencing with low-latency communication.

School ERP — **School Management System** — *ASP.NET Core, SQL Server*

- Built a comprehensive ERP for schools automating attendance, fee management, student records, staff administration, and role-based access control.
- Implemented dynamic ID card generation and automated PDF reporting with optimized SQL Server stored procedures for efficient data operations.

EDUCATION

Master of Computer Applications (MCA)

Computer Science & Engineering

Integral University, Lucknow

I hereby declare that all information provided above is true, complete, and correct to the best of my knowledge.
